Work History

2019-01 - current

UI Engineer - Direct Line Group, London

- Created responsive, accessible and cross-browser complaint web pages/components using HTML, SCSS, Angular and Test Automation Frameworks (Protractor).
- Worked within an agile environment, coordinating with the scrum team to prioritise tasks and complete them within mutually agreeable timescales all tracked on Jira.
- Active in sharing new tools, technology and techniques as part of the Engineering community and to the wider team.
- Represented web team at meetings with executives and discussed project goals and milestones.
- Pitched in to assist senior developers to meet pressing deadlines during under-staffed periods.

2017-01 - 2018-08

Front End Web Developer - Hiveli, London

- Took concepts and produced design mockups and prototypes, using Affinity Designer, to strengthen designs, enhance user experiences and improve site interactions.
- Reviewed code to validate structures, assess security and verify browser and device compatibility.
- Spearheaded production of page content such as visuals and text copy to meet project specifications.
- Performed and completed cross-browser compliance testing and accessibility testing to agreed standards.

Education

2014-09 - 2018-07

Bachelor of Science: Economics

Lancaster University - Lancashire
